

# Welcome to the Cruise America and Cruise Canada Tourbook

**C**ruise America started business in 1972 and we have been promoting their vehicle rental in Europe for thirty of those forty years in business. That's why we can call ourselves the Motorhome Experts!

As it was the day it first opened its doors, Cruise America is under the ownership and management of the Smalley family whose history in vehicle rental goes back as far as the 1920's before there were hotels on Miami Beach where Cruise America began.

Rest assured that we know motorhomes and know the motorhome rental business. We know what you want in a rental vehicle. In fact as you read the following pages, and example itineraries we have prepared for you, you'll understand that our knowledge of North America is pretty wide as well!

But we don't just stop there. Please look at the various tours that follow for guidance but know that in that nine times out of ten we will tailor-make your own personal itinerary so you see then what YOU want to see when YOU want to see it – and stay just as long as you like in each place.

Rentals are possible from twenty five locations in the USA and six in Canada. No other company will offer you this many locations to travel from and to.

Enjoy the next few pages and share the ideas we have for your personal trip. If you have questions, please don't hesitate to call us on 0844 910 3271 or email [reservations@cruiseamerica.co.uk](mailto:reservations@cruiseamerica.co.uk).
